

Exploring Careers

K - 2

Activity:

Begin the journey of your lifetime exploring exciting careers. This activity will help you match things you like to do with jobs you might like when you grow up. Begin by thinking about things you like to do.

Step 1: For this hands-on activity, you will need green, yellow, and red colored pencils or crayons. Color, following the same rules as a stop light.

You **LIKE** the activity, **go ahead**, & color the picture **GREEN**.

You are **UNSURE**, **use caution**, & color the picture **YELLOW**.

• If you **DISLIKE** the activity, **stop**, & color the picture **RED**.

Step 2: Count how many green, yellow, and red pictures you have.

Step 3: Look up the jobs that go with your green pictures. These are jobs you might like to do. Yellow pictures are probably activities you haven't done, or haven't done often enough to know whether or not you like them. Put a question mark next to the yellow pictures. Red pictures are those activities you know you don't like at all! Cross the red pictures out!

Step 4: Look back at the jobs that go with green pictures, and pick three. Remember, this activity is designed to help you explore a lot of options! You might try this activity again in a month and see if your answers have changed.

On _____ (Today's Date) I would most like to explore these jobs:

Color your interests. Below are pictures of job activities. You will need green, yellow, and red crayons or colored pencils to color the stoplight next to your choices. Follow the same rules as a stop sign: **green** to go ahead to activities you like. **Yellow** for activities you are not sure about; and **red** for activities you don't like.

Build houses

Explore outer space

Collect customer's money

Fix pipes

Clean buildings

Drive a truck

Teach students

Dance

Take pictures

Make and play music

Treat disease and injuries

Solve crimes

Color your interests. Below are pictures of job activities. You will need green, yellow, and red crayons or colored pencils to color the stoplight next to your choices. Follow the same rules as a stop sign: **green** to go ahead to activities you like. **Yellow** for activities you are not sure about; and **red** for activities you don't like.

Care for animals

Fight fires

Deliver the mail

Cook

Make clothes

Do experiments

Play sports

Take care of kids

Fly airplanes

Fix electrical equipment

Find dinosaurs

Be on TV or radio

Step 4: Below are clusters of job titles. Color the circle next to each cluster the same way you did the stop light. **GREEN – LIKE, YELLOW – NOT SURE, RED – DON'T LIKE.** Look back at the jobs that go with green pictures, and **pick three jobs.** Remember, this activity is designed to help you explore a lot of options! You might try this activity again in a month and see if your answers have changed.
