Career on Wheels

This is a program for Elementary students held at your school, employers bring vehicles to your school and inform students how these vehicles help to do their jobs.

Joe or Colleen work with you to set a date and time that works for your class room. They will contact employers and arrange for them to meet at the desired date and time, along with how the information can be presented to students. On the day of the event, Colleen or Joe will be present to help set up the event and assist your classroom during the presentations.

The students enjoy being able to touch the vehicles and love when they change stations to either a specialized siren or horn from the employers.

Please Contact Joe or Colleen, contact information can be found on the Contact page of the website.
